

CORPORATE PORTFOLIO

WHO WE ARE

IMA-NIP Group is formed by several companies dedicated to the construction industry that are specialized by divisions and cater to Health Care, Industrial, Infrastructure, Structural Engineering, Architecture, Construction, Supervision, Project Auditing. Our experience dates back to 30 years ago when the company was born with the intention to provide these services.

Mission

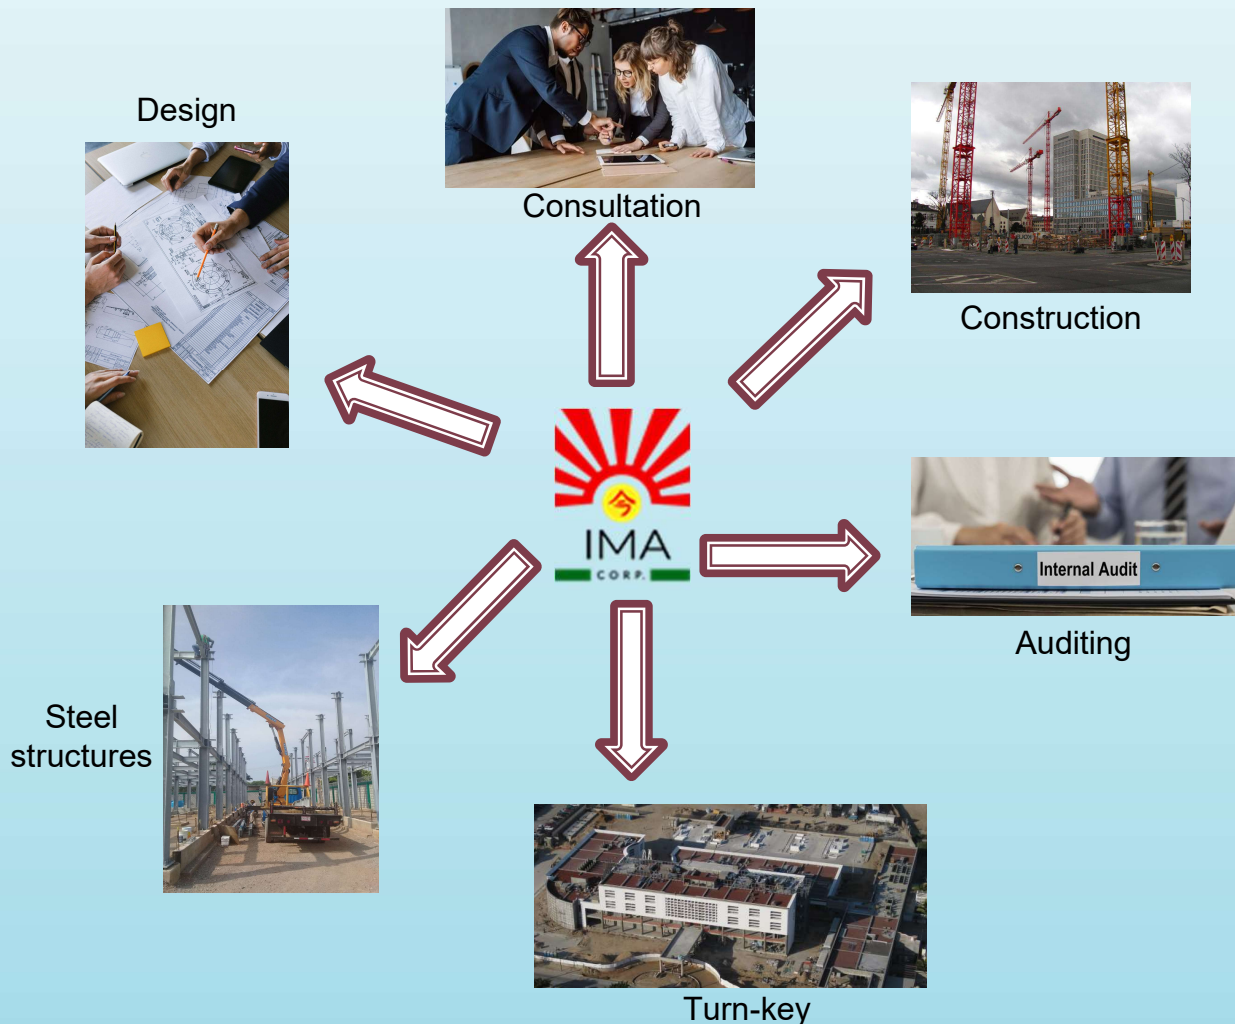

Apply our experience in project development to the full satisfaction of our customers under the motto of "The optimization of Engineering to do more with less is our goal"

Vision

Maintain IMA-NIP group within the most competitive construction and engineering firms, committed with its philosophy, values and established standards in order to reach this vision beyond our borders.

Services we provide

Through the many years that the companies that form IMA-NIP Group have existed, we have served on projects not only in Mexico but also in Central America and for the United States Government. We offer our many clients:

Clients

Areas of expertise

Healthcare

All of the many specialized aspects that are a part of any healthcare facility. From remodeling, additions or complete hospital construction. We have performed these projects throughout Mexico.

Electrical projects ranging from High voltage power plants to maintenance on hydroelectrical plants.

Water treatment plants, city supply lines, potable water tanks.

Paving and resurfacing of streets and highways.

Infrastructure

Steel structures

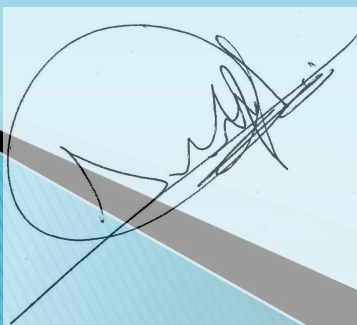

Highly specialized in all forms of steel structures. Presition manufactured on shop to be assembled anywhere it is shipped to. Added value providing galvanization to the structures for corrosion protection when requested.

Wide variety of projects, weather they are residential, commercial, educational and industrial. Turn-key offers peace of mind to our clients.

Custom projects

Parks and recreation

Highly specialized in all forms of steel structures. Presition manufactured on shop to be assembled anywhere it is shipped to. Added value providing galvanization to the structures for corrosion protection when requested.
